Stainless Steel Sink Workstations

Specifications:

Continental Metal Products Stainless Steel Sink Workstations shall be constructed of type 304 stainless steel with a no. 4 finish. All corners are welded, ground, blended and polished to match a no. 4 finish.

Standard dimensions shall be 25" deep x 31" to 42" high (Adjustable Height) x 48" to 120" wide (in 12" increments).

Unit shall be constructed of no. 16 gauge stainless steel top with 1/8" high raised no drip marine edge on front and two sides to retain water droplets. Rear shall have a backsplash with 1/4" radius at counter top, flanged up 4" high and returned back 1" wide and down 1/2" to form boxed type edge. Underside of top shall be reinforced with no. 16 gauge channels to prevent warping or distortion.

No. 18 gauge stainless steel integral sinks shall be provided as specified with 1-3/4" radius coved corners. See below for available standard sink sizes. Top is punched to accommodate specified plumbing fixtures. Front and two sides of workstation shall have a no. 18 gauge stainless steel apron to conceal sink bowls.

Workstation shall be freestanding and mounted on 1-5/8" O.D. no. 16 gauge tubular stainless steel legs with enclosed square set screw sockets and adjustable bullet feet to vary height from 36" to 37-1/2" maximum. Adjustable working height option for improved ergonomics includes; Push button operation, 31" to 42" high working height range, and Mechanically controlled for better position control with self-locking feature. Four (4) legs are provided for tables 48" to 72" and six (6) legs for 84" to 120" widths. Cross bracing shall be used to secure legs and ensure stability. Offset wall clips are provided for securing equipment at backsplash.

Standard service connections required are 1/2" hot water, 1/2" cold water and 1-1/2" waste.
