Adjustable Height Stainless Steel Utility Tables

CMP's NEW Adjustable Utility Tables offer great features:

- **Push button operation
 31" to 42" working height range**
- **Mechanically controlled for better position control with self- locking feature**

Continental Metal Products Stainless Steel Utility Tables are now available in an adjustable height model for improved ergonomics.

CMP has been building Stainless Steel Utility Tables for over 69 years. CMP's Utility Tables are of the highest quality and are extremely rugged and durable. Utility Tables are available in many standard sizes and can also be customized to meet any requirement. CMP is so confident in our quality and craftsmanship that we offer a two year labor and six year parts warranty.

Adjustable Height Stainless Steel Utility Tables

Specifications:

Continental Metal Products Stainless Steel Utility Tables shall be constructed of type 304 stainless steel with a no. 4 finish. All corners are welded, ground, blended and polished to match a no. 4 finish.

Standard dimensions shall be 25" deep x 31" to 42" high (Adjustable Height) x 36" to 120" wide (in 12" increments).

Unit shall be constructed of no. 16 gauge stainless steel top with 1/8" high raised no drip marine edge on all four sides to retain water droplets. Underside of top shall be reinforced with no. 16 gauge channels to prevent warping or distortion. Perimeter of table shall have a no. 18 gauge stainless steel apron.

Utility Table shall be freestanding and mounted on 1-5/8" O.D. no. 16 gauge tubular stainless steel legs with enclosed square set screw sockets and adjustable bullet feet to vary height from 36" to 37-1/2" maximum. Adjustable working height option for improved ergonomics includes; Push button operation, 31" to 42" high working height range, and Mechanically controlled for better position control with self-locking feature. Four (4) legs are provided for tables 48" to 72" and six (6) legs for 84" to 120" widths. Cross bracing shall be used to secure legs and ensure stability.

When specified, tubular crossbracing shall be replaced with no. 18 gauge stainless steel removable undershelf with boxed edges and center stiffening channel on underside. Where unit abuts walls, back and end splashes are optionally available with 1/4" radius at counter top, flanged up 4" high and returned back 1" wide and down 1/2" to form boxed type edge.

Power 120V, 60HZ, 1PH, 10 Amps. Other voltages are available.
