# Adjustable Height Stainless Steel Sink Workstations

## Specifications:

Continental Metal Products Stainless Steel Sink Workstations shall be constructed of type 304 stainless steel with a no. 4 finish. All corners are welded, ground, blended and polished to match a no. 4 finish.

Standard dimensions shall be 25" deep x 34" to 41" high (Adjustable Height) x 48" to 120" wide (in 12" increments).

Unit shall be constructed of no. 16 gauge stainless steel top with 1/8" high raised no drip marine edge on front and two sides to retain water droplets. Rear shall have a backsplash with 1/4" radius at counter top, flanged up 4" high and returned back 1" wide and down 1/2" to form boxed type edge. Underside of top shall be reinforced with no. 16 gauge channels to prevent warping or distortion.

No. 18 gauge stainless steel integral sinks shall be provided as specified with 1-3/4" radius coved corners. See below for available standard sink sizes. Top is punched to accommodate specified plumbing fixtures. Front and two sides of workstation shall have a no. 18 gauge stainless steel apron to conceal sink bowls.

Workstation shall be freestanding and mounted on 1-5/8" O.D. no. 16 gauge tubular stainless steel legs with enclosed square set screw sockets. Adjustable working height option for improved ergonomics includes; Push button operation, raises and lowers unit at 34" to 41" high, working height range, and Mechanically controlled for better position control with self-locking feature. Offset wall clips are provided for securing equipment at backsplash.

Standard service connections required are 1/2" hot water, 1/2" cold water and 1-1/2" waste.

Power requirement is 115V/ 60HZ/ 1 PH - 20 AMPS (Hardwired)
