Smart Solutions for Sterile Processing (SPD) and Operating Room

Specifications Full Height Cabinets:

Pegboard Cabinets shall be full-height storage cabinets for either free-standing or built-in installations. Full-view doors shall allow complete visual inspection without blind areas caused by cross pieces.

Continental Metal Products Stainless Steel Pegboard Cabinets are constructed of 18 gauge, type 304 stainless steel with a No. 4 finish. All exposed welds to be done by Heliarc process and ground and polished to match No. 4 finish. Storage cabinets can be selected and arranged in many different ways to accommodate the storage and operational needs of any institution.

Cabinets shall be available in widths of 24” (610mm), 30” (762mm), 36” (914mm), 42” (1,067mm) and 48” (1,219mm), and depths of 18” (457mm) and 24” (610mm). Height of cabinets shall be 60” (1,524mm) or 72” (1,829mm).

Doors

Two full-height, glazed doors shall be provided with stainless steel perimeter frame, Heliarc-welded to form rigid structure and polished to No. 4 finish. Doors shall have 1⁄4” (6mm) thick shatter-proof, tempered glass panes. Doors shall be supplied with chrome-plated pull handles, hinges and roller catches.

The cabinets have a self-trimming perimeter flange that allows for an easy and clean installation into recessed openings. The cabinets are also available with finished ends and tops for freestanding installations. The cabinets can be mounted on a contractor built base or supplied with a stainless steel pedestal base. Glass doors contain 1⁄4” thick tempered glass. Entire front portion of door is punched and formed from one piece of 18-gauge stainless steel. Stainless steel double pan doors and sliding glass doors are also available. Doors are mounted on heavy duty chrome plated hinges and are secured closed using nylon friction roller catches. Two-point knob lock doors are also available. Optional shelves use pilaster strips that allow for height adjustment increments of 1⁄2”. The pilaster strips are easily removed to allow for proper sterilization of the cabinet and pilaster strip. Handles for doors are chrome plated. Pegboard Cabinets can be configured to the user’s specific requirements. Contact CMP for more information.

Wall Cabinets

CMP manufactures a complete line of stainless steel pegboard wall cabinets, consisting of open or enclosed cabinets with either hinged stainless steel or hinged glass doors.

Features

- Type 304 Stainless Steel Construction
  - Flush Front Doors
  - Double Pan Doors with Welded Corners
  - Stainless Steel or 1⁄4” Thick Laminated Tempered Hinged Doors
