- Optional Antimicrobial Copper Handles
- Desks Maintains view of patient
- Optional Casters
- Adjustable Shelves
- Ventilated cabinet option
- Grommets for Computer Wiring
- Optional Lower Storage Shelf

OR Nurse Documentation Center – Desks for Operating Room

CMP's newly expanded line of Stainless Steel OR Nurse Desk Documentation Stations and Operating Room Computer Integration Centers, provide storage for audio/video, data storage, and communications equipment that are required for an integrated operating suite, as well as a large desk or work surface area to meet the charting and documentation needs of the circulating nurses and surgical staff. The Nurse Documentation Station and OR Nurse Desks provide a shared hub for information systems distribution within and outside of the surgical suite. Vented cabinets and cord pass-through outlets are available.

CMP will customize your nurse documentation station and OR computer integration cabinets to accommodate the wide range of electronic equipment storage that your specific Operating Room, Cath Lab, EP Lab or Hybrid OR requires. Many designs are available including an L-shaped design with left or right orientation option, depending on OR layout requirements to maximize viewing of the operative or surgical field while reporting and charting of cases. Optional base cabinet offers cord pass-through outlets, file drawer or adjustable interior shelf.

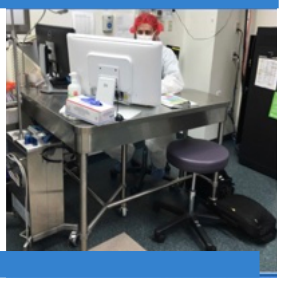
Continental Metal Products

CMP's Smart Solutions for Surgical Spaces



Specifications:

Continental Metal Products Stainless Nurse Documentation Desks and OR Computer Integration Cabinets are constructed of 18 gauge, type 304 stainless steel with a No. 4 finish. All exposed welds to be done by Heliarc process and ground and polished to match No. 4 finish. Storage cabinets can be selected and arranged in many different ways to accommodate the storage and operational needs of any institution. Full-view doors shall allow complete visual inspection without blind areas caused by cross pieces.

The cabinets are available with finished ends and tops for freestanding and mobile installations. Optional Slope-top and / or Stainless steel base. SC4D-4872-24S contains two half-height, glazed doors with stainless steel perimeter frame, and two half-height vented solid stainless steel doors. SC2-3072-S models contain 2 doors with ¾ glazed doors with bottom ¼ vented solid stainless steel. Heliarc-welded to form rigid structure and polished to No. 4 finish. Doors shall have ¼" (6mm) thick shatter-proof, safety glass panes. Doors shall be supplied with chrome-plated pull handles (optional antimicrobial copper handles), hinges and roller catches. Entire front portion of door is punched and formed from one piece of 18 gauge stainless steel. Stainless steel double pan doors, sliding glass doors, and tambour roll-up doors are also available. Hinged doors are mounted on heavy duty chrome plated hinges and are secured closed using nylon friction roller catches. Two point knob lock doors are also available. Cabinets with shelves use pilaster strips that allow for height adjustment increments of ½". The pilaster strips are easily removed to allow for proper sterilization of the cabinet and pilaster strip.

Model	Exterior Dimentions	Features
